-  **Mentorship Support:** Guidance from industry experts
-  **Gamified Experience:** Coins, streaks, and rewards system
-  **Skill Development:** Real-world challenges & performance tracking

Uplift Next Generation

PROBLEM STATEMENT

- ❌ Platforms are not connected
- 🎓 Students face skill gap
- 📱 App is still in beta stage
- ⚠️ Issues in usability & engagement
- 🔍 User feedback is important

➤ OBJECTIVES OF PROJECT

1.

To collect and analyze user feedback from beta testers of the UPXGEN platform, focusing on their experiences.

2.

To identify and prioritize the most critical user pain points that affect satisfaction and engagement of users.

3.

To develop actionable recommendations that enhance platform usability, improve engagement strategies & support readiness for market launch.

➤ RESEARCH METHODOLOGY

1. Research Design

Content:

- **Research Type:** Descriptive Research
- **Approach:** Qualitative + Quantitative
- **Sample Size:** 100
- **Sampling Method:** Convenience Sampling

Data Collection:

- **Primary:** Questionnaire (Google Forms)
- **Secondary:** Books & Research Papers

Tools Used:

- MS Excel
- Google Forms

2. Procedures

- **Introduction:** In these stage the app were introduced.
- **Engagement:** Users collected coins to unlock internships, mentorships, and projects.
- **Survey:** Google Form shared with 100 users to gather ratings and suggestions.
- **Feedback:** Questionnaires, interviews, and observations revealed user challenges.
- **Problem Identification:** High coin needs and technical issues were reported.
- **Improvement & Re-Engagement:** Coin levels reduced, glitches fixed, and users returned with positive feedback.

» OBJECTIVE 1

FINDINGS

- Daily users are loyal, but there is retention gaps among monthly/rare users.
- Internships drive engagement most; other features have lower appeal.
- Overall satisfaction is good, but some user are neutral & distatisfied.
- Navigation is mostly easy, though some usability issues persist.
- Gamification motivates, but unlocking is difficult.
- Quizzes are valued, yet need more variety.

RECOMMENDATIONS

- Re-engage occasional users with reminders and rewards.
- Expand internships with certifications, paid options, and tie-ups.
- Improve competitions with better rewards and clarity.
- Strengthen mentorship/projects with structured guidance.
- Simplify navigation, enhance visuals, and fix glitches.
- Refine gamification with higher rewards and easier unlocks.
- Add variety and career-related content to quizzes.

OBJECTIVE 2

FINDINGS

- Major Challenges (Slow Loading, Navigation, Login Errors)
- Mixed Speed & Performance Satisfaction
- Gamification Unlock Difficulties
- Notifications Gaps
- Career Features Needing Improvement (Internships, Competitions, Mentorship)
- Barriers to Regular Use (Time, Usability, Awareness)
- Pain Points (Limited Rewards, Poor Usability)

RECOMMENDATIONS

- Optimize Speed & Usability
- Clarify Instructions (Guides, FAQs, Tutorials)
- Redesign Gamification (Rewards, Unlocks, Transparency)
- Improve Notifications (Personalized & Timely)
- Strengthen Career Features (Internships, Certifications, Tie-Ups)
- Promote Awareness & Flexible Engagement
- Add Incentives & Career-Relevant Opportunities

» OBJECTIVE 3

FINDINGS

- Demand for More Internships
- Gamification Issues (Rewards, Unlocks, Transparency)
- Competition Improvements Needed
- Value of Paid Internships & Certifications
- Interface & Usability Enhancements
- Effective Marketing Strategies (Social Media, Campus)
- Pre-Launch Priorities (Opportunities, Usability, Rewards)

RECOMMENDATIONS

- Expand Career-Oriented Features
- Redesign Gamification System
- Improve Competitions like Rewards, Clarity, Sponsorships.
- Enhance Internships with Paid, Certified, Longer Duration.
- Upgrade Interface & Usability
- Strengthen Marketing Strategy
- Focus on Pre-Launch Improvements

Thank You!
